The Weather.

The intensely hot and dry weather
which has tried the patience of both
man and beast in this locality the
past month has been somewhat bro-
ken. On Saturday morning a little
rain fell, and during the day several
showers condescended to make their
presence felt. It lacked but a month
to a day since we had had a rain
fall, and the hot dry weather had
considerably cooked our corn. Not
much if any over a half a crop will
be harvested. While the rain was
not sufficient to permit of the farmers
plowing, it helped the corn a trifle,
and considerably cooled off the at-
mosphere. Since then it has not
been nearly so hot. It is to be hoped
that more moisture will be received
soon so that the ground may be prop-
erly prepared for fall seeding, and
also that the back of the summer
heat has been at least badly bent.

Rev. Emmerich, H. R. Arnold,
and Mat Dick were visitors from
Ellinwood Tuesday afternoon.
